

Forklift Spreader Bar

Forklift Spreader Bar - Proudly operating since nineteen seventy four, ELME Spreader AB is the largest independent spreader producer around the globe. They have been a devoted manufacturer of spreaders utilized for different applications like for example the trailers, handling of containers and swap bodies.

Engineering is done in-house by way of utilizing all the most up-to-date CAD systems and FEM tools. The ELME company presently has more than one hundred twenty five staff members. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes around the world.

The ELME product range offers spreaders designed for different trailer and container handling operations. Several of their inventory comprise: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks and a huge variety of additional parts.

ELME production and manufacturing is done in a highly automated purpose built factory. In the year 2008, they created more than 1150 spreaders by way of making use of high quality parts to guarantee dependability and high standards while offering reasonable prices. Major features of ELME include design simplicity, market feedback and ground-breaking modular spreader concept.
