Globally, Clark has one of the most impressive dealer support networks. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the material handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional dedication to safety is now a customary feature on every lift truck.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing market position.

Clark has preferred the very economical and advantageous system of "Lean Manufacturing" for its assembly facilities and use of resources. This system was established to acknowledge the most effective method of manufacturing plant stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing expenses. The contemporary value engineering program combines innovative product improvement and delivers superior client support and service within the industry.
