

Concrete Hoppers

Concrete Hoppers - This particular attachment is a self-dumping hopper which automatically triggers to unload as bumper release contacts the side of a dumpster. As soon as unloading is completed, the hopper goes back to an upright and locked position. This piece of equipment is even available together with a cable that enables operation from the seat of the forklift in order to have the choice of manually dumping the hopper. There is a locking chain provided in order to secure the hopper to the tine truck. This particular product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper even has a blue powder coat finish so as to maintain durability.
